

\$197,000.00

Here is the one you have been looking for, a neat and well kept home with two bedrooms, both having built-in robes. The residence is located on a quiet street within a much sought after village. The tiled flooring in the lounge, walk and work areas ensures a low maintenance home for those who have other pursuits in mind that do not include house work. A wrap around kitchen allows easy access to stove fridge and cupboards whilst giving a bright outlook through the large front window. A serving/preparation bar opens out onto a separate dining area and then onto a large lounge room with ceiling fan, natural gas heater outlet and split system air conditioning. The low maintenance outside area features a large garden shed inside the carport.
